iPad Learning: Fun Apps With a Curriculum Twist

## FBISD Educational Technology Department

Training Objectives

- Demonstrate some of the apps we've used to create lessons and activities.
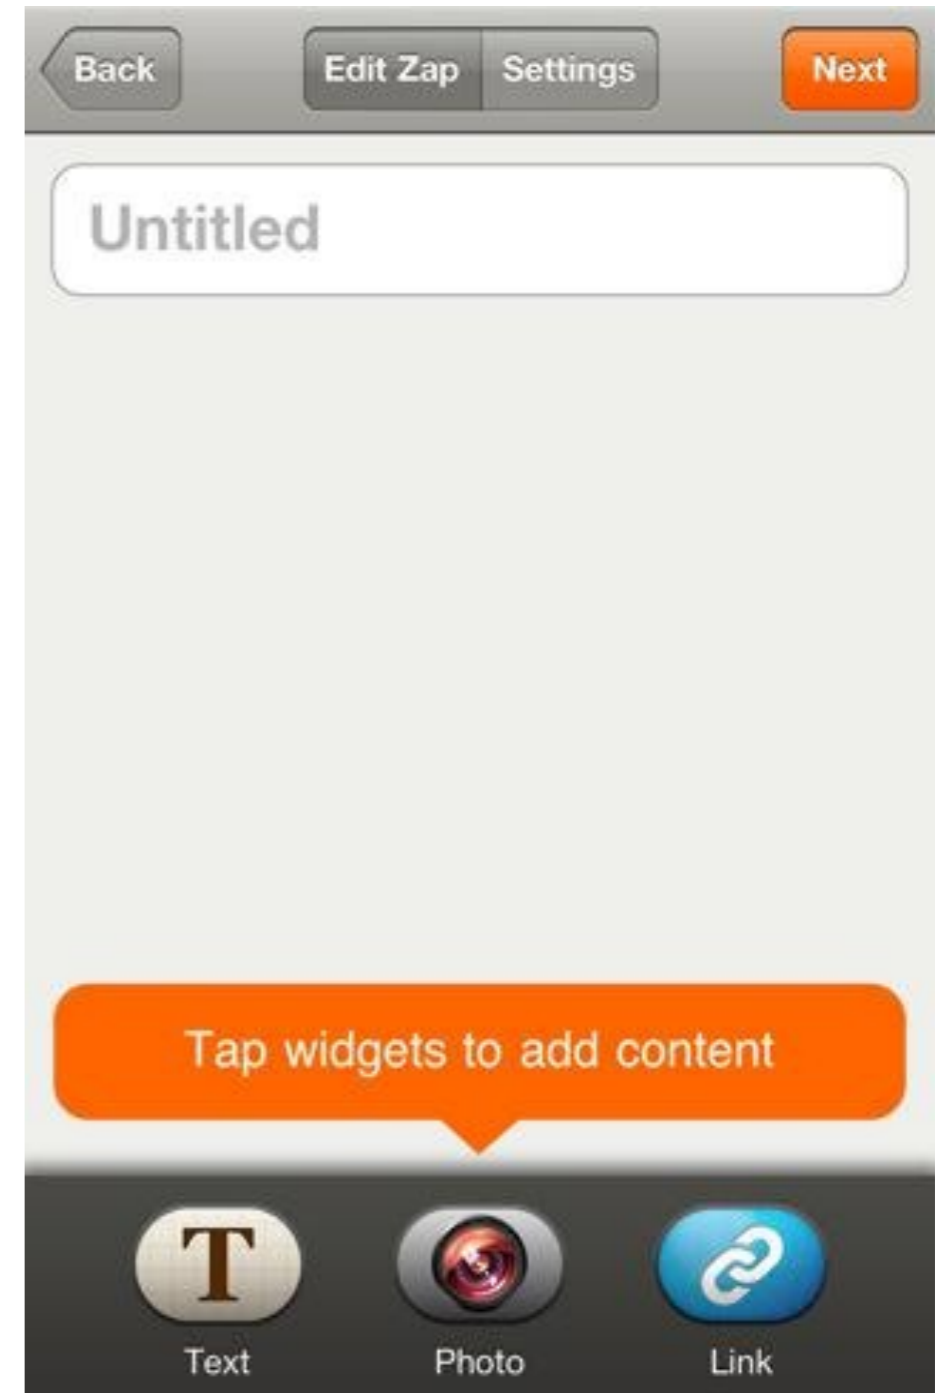

- Share lesson ideas.

- Create lessons.

# Maps
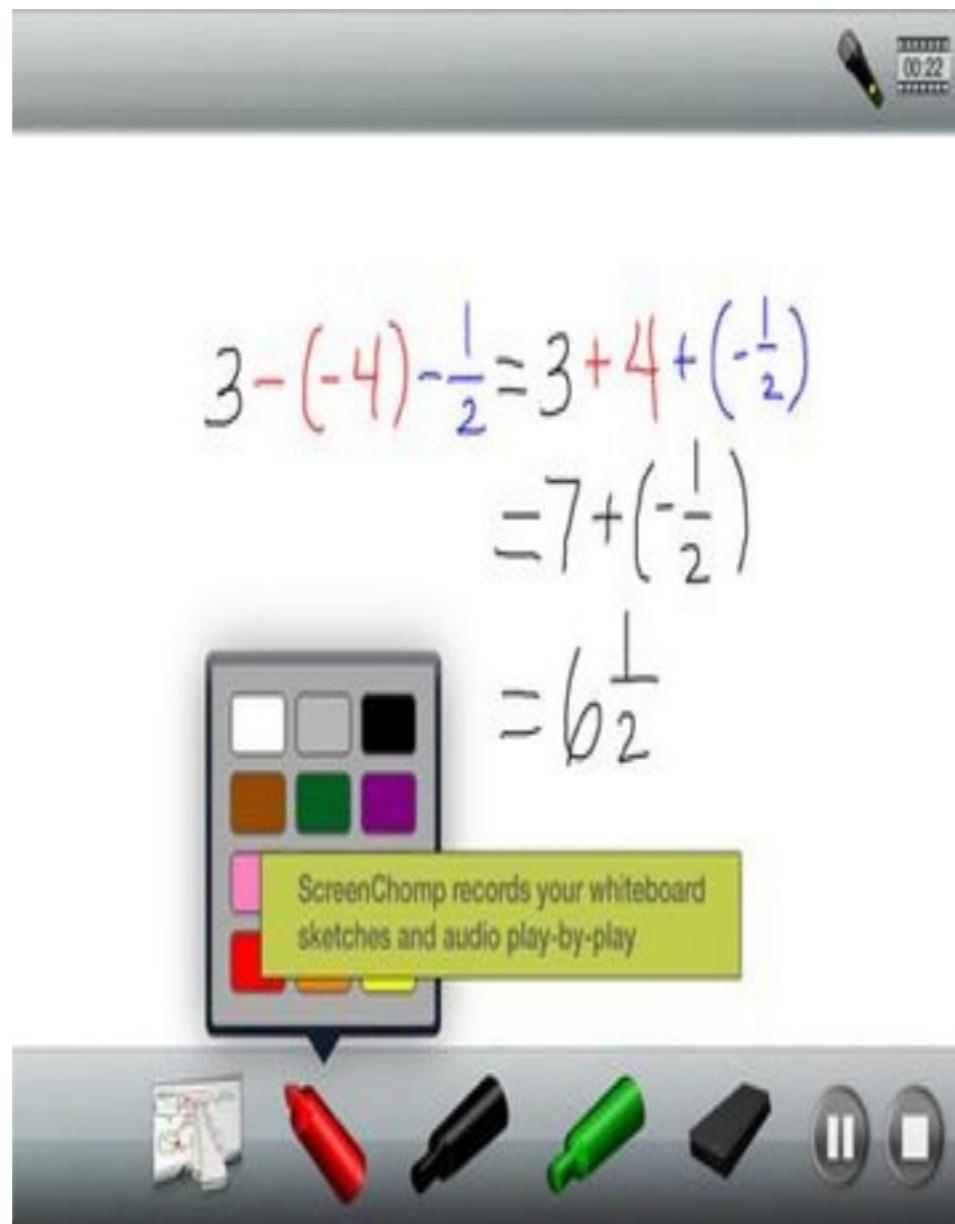

Maps is a built in app that comes with iDevices.

zapd

zapd is a free website creator for iDevices.

Screen Chomp

A whiteboard app that allows you to sketch, share, and record.

Splice

Allows you to create and edit your own videos.

Doodle Buddy

Doodle Buddy allows you to draw, paint, type, scribble, and sketch plus add stamps and sound effects.

Sock Puppets

Sock Puppets lets you create your own lip-synched videos and share them. Add Puppets, props, scenery, and backgrounds and start creating. Hit the record button and the puppets automatically lip-synch to your voice.
